Surabaya, Jawa Timur

## PROFILE

---

I am a 4th-semester student in the Digital Business program at Universitas Negeri Surabaya, passionate about Data Analysis and Data Science in the business sector. Throughout my academic journey, I have demonstrated leadership, teamwork, and essential soft skills such as effective communication, time management, analytical thinking, problem-solving, and adaptability. I have developed technical proficiency in Big Data, Data Management, Data Visualization, Python Programming, and SQL through coursework and self-study. Committed to continuous learning, I am eager to explore new technologies and methodologies. Additionally, I possess a solid understanding of software engineering and graphic design principles, ready to further develop my skills in these areas.

## EDUCATION

---

### SMA 1 GRESIK – Gresik, Indonesia

#### Math and Science (MIPA)

2019 – 2022

- This multidisciplinary approach fosters analytical thinking, problem-solving skills, and a deep comprehension of natural phenomena, preparing students for various scientific and technical fields.

### Universitas Negeri Surabaya – Surabaya, Indonesia

#### Digital Business Undergraduate Study Program

2022 – Present

- GPA: 3.59 / 4.00
- Relevant Courses: Database Systems, Programming Algorithm, Business Statistics, Basic Information Technology, Web Programming, Introduction to Digital Business, Design Thinking Innovation

## PROJECT EXPERIENCE

---

### Online Store Mesin Tempe Cah Bagus - Business and Prototype Development

Assistant Project Leader

September 2023 – December 2023

- Designed and implemented the initial website layout and user interface using HTML, CSS, and relevant frameworks, and developed a fully functional prototype showcasing the online top-up service.
- Integrated multiple payment gateways to ensure secure transactions and conducted extensive testing and debugging to deliver a smooth user experience.
- Coordinated with stakeholders and team members to align the project with business goals, successfully launching the website and achieving significant user engagement and positive feedback.

### Jaya Abadi Bookstore Application - Web Development Project

Assistant Project Leader

November 2023 – December 2023

- Successfully developed a web application that helps Jaya Abadi Bookstore manage inventory and sales more efficiently.
- Improved operational efficiency of the bookstore with an integrated and automated inventory management system.
- Expanded the business reach by providing an online sales platform accessible to customers at any time.

### ARK-BISDIG Mobile Application for Class Reservation – Digital Business Program, UNESA

Project Leader

January 2024 – May 2024

- Developed an intuitive user interface that simplifies the class reservation process, making it easy for students and faculty to navigate and book classes with just a few clicks.
- Implemented a system for real-time updates and notifications, ensuring users are promptly informed about their reservations, any changes in schedules, and available slots, thereby reducing confusion and enhancing communication..
- Transitioned from a manual, conventional reservation system to a streamlined digital platform, significantly improving the efficiency of managing class schedules and reservations. This change has led to better organization, reduced administrative workload, and improved overall productivity for the Digital Business program.
